The streets will be partially closed during this work which will include sweeping the street to remove dirt and debris, applying hot asphalt emulsion and using a squeegee to spread the material.

Traffic control devices will be utilized during this work to provide warnings to motorists and residents to ensure the project is completed safely so please use caution when driving around these streets during the work.

Your patience and understanding during this work is greatly appreciated and should you have any questions please contact the Public Works Director, Steve Ziegler at 928-669-9265.
